These laws protect international students and also help ensure students meet student visa conditions for attending classes and making satisfactory progress in their studies while in Australia. Information on the ESOS legislation is available on the ESOS Act page.

*The National Code*

The *National Code of Practice for Registration Authorities and Providers of Education and Training to Overseas Students (the National Code)* is a set of nationally consistent standards that governs the
protection of overseas students and delivery of courses to those students by providers registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). Only CRICOS courses can be offered to international students studying in Australia on a student visa. The National Code provides 15 nationally consistent standards for the professional conduct of education providers and the registration of their courses on CRICOS. In particular NC 6.7 states that “the registered provider must ensure that its staff members who interact directly with students are aware of the registered provider’s obligations under the ESOS framework and the potential implications for students arising from the exercise of these obligations.” This means that all staff members must ensure that they are aware of these obligations as they relate to their work role.

**VET Quality Framework**

An essential mechanism for the regulation of vocational education and training (VET) is the national standards against which applicants/RTOs are assessed. Prior to the establishment of the national VET regulator, ASQA, the standards that applied to an RTO's or applicant's registration were found within the Australian Quality Training Framework (AQTF).

The Standards for National VET Regulator (NVR) Registered Training Organisations 2011 replace the former AQTF standards for relevant applicants/RTOs which includes Ozford.

The Standards for NVR Registered Training Organisations 2011 are now the standards guiding nationally consistent, high-quality training and assessment services in the vocational education and training system.

- Fair - assessment methods and procedures will not, under any circumstance, disadvantage any student.
- Valid - Assessment activities will always meet the requirements as specified in the unit of competence/module. Sufficient evidence will always be collected, and will be relevant to the standard/module being assessed.

Assessment Resources

Ozford College of Business will ensure that all aspects of competence are covered when designing assessment resources. All assessment reporting systems will indicate the units of competency that the student has attained.

Conducting Assessment

When conducting assessment, Ozford College of Business ensures it has personnel with appropriate qualifications and adheres to the endorsed Training and Assessment competency standards.

Assessment activities undertaken by Ozford College of Business always follow the methodology outlined below:
1. Assessment procedures are fully explained to students. Throughout all training, students are regularly reminded if the ongoing availability of assessment.
2. Opportunities for Recognition (recognition of prior learning/ recognition of current competence and credit transfer) are also discussed, as are any available flexible methods of assessment. The appeals and reassessment process is also outlined.
3. The assessment requirements of the unit(s) of competence/modules(s) are outlined, and any particular arrangements for the workplace/ training environment are arranged.
4. All evidence-gathering methods remain reliable, flexible, fair and valid.
5. As assessments are taken, Ozford College of Business trainers/assessors record individual student assessment results. Copies of the assessment instrument are kept by Ozford consistent with the General Direction of ASQA.
6. Post-assessment feedback is always available to students.
7. A fair and impartial appeals process is always available.
8. Evaluation of assessment processes and procedures is gathered on an on-going (informal) basis.

Evidence gathering methods commonly used by Ozford College of Business include, but are in no way limited to:

- Demonstration
- Questioning
- Workplace performance
- Role-play
- Simulation
- Oral presentation
- Graphic presentation
- Projects/assignments
- Audio/visual display

Assessment Retention

The current ASQA general direction requires that all original assessments of all students be kept for a minimum of six months. The ASQA assessment/audit process is multifaceted when original pieces of assessment are audited. Everything from consistency with requirements of the unit of competency through authenticity of work to meeting AQF requirements is examined. Consequently Ozford requires trainers and assessors to make sure that all assessments for each unit of competence are:

- complete and have been accurately and completely marked
- consistent with and meet the requirements of the unit of competency and
- are consistent with those specified in any Learning and Assessment strategy or delivery and assessment plan

Ozford also makes sure that the following information is also available in relation to assessment for each unit of competency.

- a mapping of skills and knowledge and critical aspects of evidence against assessment tasks
- a mapping of employability skills against assessment tasks
- a mapping of performance criteria against assessment tasks
- a clear set of assessment criteria/model answers for each assessment task that relate to the tasks
- an indication within session plans of when assessments were/are to be initiated and when finalized
- clear advice to assessors on the process of assessment for the unit
- clear advice to students
  - of the assessment tasks to be completed and the specific requirements of each assessment task,
  - indicating that students need to satisfactorily complete all specified assessment tasks.
- specifying the commencement and completion dates and any specific times scheduled for assessments
  - an assessment cover page for each assessment task that uses S and NYS as results
  - an overall assessment record sheet (Unit Cover page) for the unit(s) of competence to show achievement of the participant against each of the specified assessment tasks a documented assessment validation approach
  - a rigorous process to ensure that no student can be recorded as competent without clear evidence that they have successfully completed all specified assessment requirements.
  - evidence of assessor undertaking assessment integrity checks

**Recognition and RPL**

Ozford College of Business recognises the assessment decisions of, and Statements of Attainment and Qualifications issued by any other RTO. This means that qualifications and units recorded on statements of attainment are recognised. Students wishing to gain recognition of qualifications or units must submit certified copies certificate at the time of enrolment.

RPL Students who consider they already possess the competencies identified in all or part of any course / qualification offered by Ozford College of Business will be encouraged to seek formal recognition by applying for Recognition of Prior Learning (RPL). It is the determination on an individual basis of the competencies obtained by a student through:

- Previous formal training
- Work experience, and/or
- Life experience

RPL therefore determines the consequent advanced standing to which the student is entitled in relation to a course/qualification. The main focus of RPL is what has been learned rather than how, where or when it was learned. RPL focuses on both the demonstration of competence and the currency of that competence to industry standards.

If any student has gained competencies at work or elsewhere which are relevant to the course/qualification in which he/she is participating, then he/she may not have to study module(s) unit(s) of competence covering that content. Students seeking RPL must establish the currency of their competence.

The Processes used to determine RPL are fair to all parties and Ozford College of Business ensures that it provides adequate support to all potential applicants.

**Recognition and RPL Process**

It is the student’s responsibility to gather sufficient evidence to support his/her application for Recognition. This evidence may include:

- Obtaining a copy of the relevant units of competency from Ozford College of Business;
- Aligning the competencies for the qualification with the competencies associated with previous education, training or workplace experience;
- Collecting any documentation, references and relevant examples to support your application;
• Providing proof of ownership of any examples of work;
• Submitting certified copies (NOT ORIGINALS) of qualifications. Certification can generally be obtained from any bank or post office as long as identification is provided.

Currently the VET Coordinator is responsible for processing and approving all applications for RPL.

**Credit Transfer**
Recognition can also include the opportunity for Credit Transfer for previous study and must also be accompanied by evidence of currency in the study area.

**Access to Students’ Records**
Each student’s records are available to them on request. Students’ records are not available to other people unless Ozford College of Business has requested in writing to student to allow such access.

**Reports**
Students will receive a report stating the units that they have successfully completed at the end of each semester. Students will be assessed as Competent or Not Yet Competent.

**Statements of Attainment**
Where an AQF qualification is partially achieved through the achievement of one or more endorsed units of competency, Ozford will issue a Statement of Attainment. Issuance of Statements of Attainment must comply with the advice provided in the Australian Qualifications Framework (AQF) Handbook or otherwise specified by ASQA.

Under the Standards for Registered Training Organisations, Ozford will recognise the achievement of competencies as recorded on a qualification or Statement of Attainment issued by other RTOs. Given this, recognised competencies can progressively build towards a full AQF qualification.

**Student Induction and Support Services**
Ozford is committed to providing appropriate support services to students to enable and provide them with every opportunity to adjust to study and life in Australia, to achieve their learning goals and to achieve satisfactory progress towards meeting the learning outcomes of the course.

**Orientation & Transition Support**
All students go through an Orientation Program during their first week at Ozford. The Orientation program involves familiarisation with living and studying in Melbourne. Contents of Orientation program include:
- Orientation to Melbourne and a tour of Ozford campuses. Emergency evacuation procedures will be explained at the same time.

- Visa requirements (for international students)

Refer to Student Support Policy and Orientation Procedures for more information.

**Training Packages**

All of the courses at Ozford College of Business are Training Package courses. A Training Package is an integrated set of nationally endorsed competency standards, assessment guidelines and Australian Qualifications Framework (AQF) qualifications for a specific industry, industry sector or enterprise.

Each Training Package:
- provides a consistent and reliable set of components for training, recognising and assessing people’s skills, and may also have optional support materials
- enables nationally recognised qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training which suits individual and industry requirements, and
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

**Competency Standards in Training Packages**

Competency Standards define the skills, knowledge and attitudes required for effective performance in the workplace. Standards are expressed in outcome terms and have a common format comprising unit title, unit description, elements, performance criteria, range statement and evidence guide. They are descriptions of the competencies required for effective performance in the workplace, both in the routine conduct of the job role and in the ability to adapt to changing role definitions. Competency standards relate to the industry as a whole, but need to be interpreted in terms of specific worksite. In other words, assessors need to take the information contained within the competency standards, relate this to the particular workplace, then use or customise that information to inform the assessment process.

**Competency Based Assessment**

Assessment is the process of collecting evidence and making judgments on whether competency has been achieved. The purpose of competency based assessment is to confirm that an individual can perform to the standard expected in the workplace, as expressed in the relevant endorsed industry or enterprise competency standards. The best way to assess is through holistic assessment methods that focus on whole work activities rather than specific tasks or components of a work activity.

**Requirements for Apprenticeship/ Traineeships**

These requirements are not applicable to Ozford College of Business current target clients.
