Assessment
Assessment will be a Learning and Assessment pathway. Participants will be advised of the assessment requirements at the beginning of each unit. Assessment will usually commence in the session following delivery. As this is a competency based program, assessment continues throughout the program until the participant either achieves competency in the assessment tasks or a further training need is identified and addressed. The assessment process may include theory, projects and practical assessments. Formative assessment is provided throughout the course in terms of practice. This is achieved through using the tasks outlined in the learners’ resources as practice. These tasks are separate to the summative assessment process that concludes each unit of competency.

Requirements to Receive the Qualification
To receive a qualification, students are required to successfully complete all units of competence for the qualification level.
