Excursion Policy (Day)

Scope
Ozford College

Purpose
School excursions enhance students’ learning by providing the opportunities for students to participate in curriculum-related activities outside the normal school routine. School excursions are well-planned curriculum-related activities that aim to maximise students’ learning experiences. School excursions are appropriately staffed and supervised and minimise any potential risks to students.

Overview
This procedure applies to school excursions where some or all students are required to be absent from school on any school day.

A “School Excursion Approval Form” must be completed for all school excursions. School Excursion Approval Forms are approved by the School Coordinator.

To ensure the health and safety of students and staff, schools are required to proactively manage all aspects of a variation to school routine. The school’s duty of care to students extends to school excursions, which are integral to students’ educational programs. Activities conducted away from schools may increase risks and therefore the standard of care required must reflect the increase in identified risks.

The organiser must be able to demonstrate that activities have been thoroughly planned to ensure that students, staff and others will be safe whilst undertaking the activity. Any potential risks must have been identified and managed and there must be a planned response in case of an emergency. However, documentation need not be excessive.

Responsibilities

School Coordinators:
- approve all school excursions ensuring appropriate organisation and curriculum relevance taking into consideration:
  - the resources of the school
  - the needs of the students
  - the costs involved
  - the impact on the total learning program.
- ensure a School Excursion Approval Form is completed for all planned school excursions

Staff members organising school excursions:
- complete a School Excursion Approval Form for planned school excursions
Process

School Coordinators:
- ensure risk assessments are conducted and emergency plans developed and documented for high and extreme risk activities that will take place as part of the excursion.
- maintain a register of approved school excursions containing:
  - times, date/s, venue and itinerary
  - number and class of participating students
  - names of supervising teachers and other assistants
  - transport, accommodation, meal and first aid/emergency arrangements
  - arrangements for students not participating
  - educational aims and planned follow-up activities
  - copies of approvals.
- arrange a program for students remaining at school for the duration of the school excursion, and ensure that adequate teacher supervision is provided.

Staff members organising school excursions:
- ensure:
  - prior permission is obtained from property owners where private property is traversed
  - all planned excursion activities have obtained appropriate approvals.
- give timely advice to parents, guardians/care-givers and students of details of location, timetable, supervision provided, activities undertaken, potential hazards, precautions taken, costs and anticipated learning outcomes during the school excursion.
- obtain written consent and where relevant any updates to medical details, from parents/guardians for all participating students under 18 years of age. Written consent is to be filed as proof of permission. Where a student is under 18 years of age and independent, consent is signed by student and countersigned by the School Coordinator. Written consent to be filed as proof of parent or guardian permission.
- assess the suitability of destinations and venues for the school excursion.
- determine appropriate supervision arrangements. In determining appropriate supervision of students, factors to consider include:
  - Which students will be involved? (age, maturity, experience, special needs, number etc)
  - What will students be doing? (running, jumping, swimming, cutting, cooking, throwing etc)
  - What will students be using? (hazardous materials, sporting equipment, tools, stove etc)
  - Where will students be? (outdoors, restricted space, pool, creek, the beach, elevated, etc)
  - Who will lead the activity? (experience, qualifications etc)
- take into consideration the:
  - age, capabilities and number of students
  - individual student’s educational and behavioural needs
  - individual student’s medical and physical requirements.
- develop a contingency plan under the direction of the School Coordinator before embarking on the school excursion, to ensure that contact can be made expeditiously with planned venue, parents/guardians, medical authorities or other personnel.
- supervise all groups during the school excursion.

Risk assessment

When planning the excursion consider the following questions:

- Which students will be involved?
- What will the students be doing?
- Where will the students be?
- Who will be leading the activity?

<table>
<thead>
<tr>
<th>Hazards/risks</th>
<th>Recommended control measures</th>
<th>Ticked</th>
</tr>
</thead>
<tbody>
<tr>
<td>Briefings</td>
<td>• Brief students prior to departure on any potential hazards and safety controls.</td>
<td></td>
</tr>
<tr>
<td>Emergency plans</td>
<td>• Ensure that all supervisors are aware of the emergency contingency plans.</td>
<td></td>
</tr>
<tr>
<td>Permission</td>
<td>• Obtain parental/guardian permission, including relevant medical information.</td>
<td></td>
</tr>
<tr>
<td>Medical conditions</td>
<td>• When students with medical conditions are involved, ensure that relevant medical/emergency plans and medications are readily available.</td>
<td></td>
</tr>
<tr>
<td>Planning</td>
<td>• Ensure that appropriate disabled access and facilities are available.</td>
